i like the game but i think there are some problems with it firstly despite me choosing to be male it kept giving options to sleep with men and while i didn't choose these options i was dating a guy in one of the chapters and when the game ended i felt like the story wasn't done at all because it ended at essentially the peak of my career and while i liked the game i wouldn't recommend it because it feels unfinished. i like the game but i think there are some problems with it firstly despite me choosing to be male it kept giving options to sleep with men and while i didn't choose these options i was dating a guy in one of the chapters and when the game ended i felt like the story wasn't done at all because it ended at essentially the peak of my career and while i liked the game i wouldn't recommend it because it feels unfinished. i like the game but i think there are some problems with it firstly

despite me choosing to be male it kept giving options to sleep with men and while i didnt choose these options i was dating a guy in one of the chapters and when the game ended i felt like the story wasnt done at all because it ended at essentially the peak of my career and while i liked the game i wouldnt recommend it because it feels unfinished. The choose-your-own adventure game I've been waiting for! Choice of the Rock Star isn't one of the longer or deeper Choice of Games, but it's full of charm and each playthrough is just the right length to make me want to dive back in to live a different life, with a wide range of possibilities for your band and career. I recommend this game to anyone who's ever loved music.. This game was okay in the moment, but then had too many random terms. I have been in hetero relationships the entire time and all of a sudden I am dating the same sex randomly at the opening of a chapter. Wtf?? I thought this was *my* character. I stopped playing after that. Nothing against same-sex relationships, but I perceived this as more of a giant programming glitch or bad writing.. I actually read through this one before it made it to Steam, and unfortunately I just couldn't get into it. As a metal head, that was pretty disappointing. Honestly, I have to give this one a 4/10..
